

GIA recognized the International Diamond Laboratory (IDL) as a third party grading laboratory for the grading and identification of diamonds and other gemstones. This report is based on the results of a comprehensive analysis and examination of the diamond described herein. The information contained in this report is accurate to the best of GIA's knowledge and may be subject to change. This report does not constitute a guarantee, warranty, or approval. IDL is not liable for any errors or omissions in this report.
